

Inspiring Healthcare Leaders  
*Accelerating Change*

**OUR VISION** To transform the healthcare industry to deliver higher value through experiments, collaboration and education that spreads learning and accelerates improvement.

## **catalysis**

noun: ca-tal-y-sis (\kə-ˈtɑ-lə-səs\  
The acceleration of a reaction by a catalyst

Catalysis is a not-for-profit education and publishing institute, founded in 2008. Our goal is to transform healthcare organizations by convening healthcare leaders and sharing best practices and innovative thinking that result in system change. Resources from Catalysis enable leaders to dramatically improve their healthcare organizations, change organizational behaviors and enhance the delivery of patient care while lowering cost.

We take our role as thought leaders seriously by rigorously experimenting with new ideas and processes that push the frontier of knowledge and best practices in improving healthcare value.

We are inspirational and aspirational to leaders who are excited to change the system of traditional healthcare leadership. We are fundamentally, a leadership change organization. John Toussaint, MD and CEO Catalysis

We are dedicated to inspiring healthcare leaders, providing encouragement and guidance necessary to sustain the momentum required for successful change. As experienced leaders in transforming healthcare value we know that initiating and sustaining change is hard work requiring courage and stamina. We will sit side-by-side with healthcare leaders and provide them with the knowledge and resources that it will take to make a difference. As coaches, we are dedicated to ensuring healthcare leaders learn how to make change happen and persist. Ultimately, Catalysis is committed to creating healthcare leaders who are “change leaders,” who will sustain cultures that thrive on continual change and improvement.
